

The Office of Culture and Office of Youth of the Consell de Formentera are pleased to announce that 25 April to 1 May, Pilar Aldea will lead a free film workshop for local 12- to 18-year-olds as part of Formentera Film Fest. Interested parties can register at the Casal de Joves or by sending an email to monica@formenterafilm.com.

At "LET'S MAKE A SHORT" (*FEIM UN CURT*), young people will use new technologies to make short films like, as organisers put it, the "films of yesterday", covering pre-production, production, post-production and screening. The objective is to guide participants in the footsteps of grand masters of early cinema like Segundo de Chomón (1871-1929), Alice Guy Blaché (1873-1968), Charlie Chaplin (1889-1977) and Buster Keaton (1895-1966), using current tools such as digital cameras, video stabilisers (cymbals), LED lights, key colour tools (chroma keys) and computer editing programmes.

16 May the results will be screened outdoors the Casal de Joves courtyard.
