

This Wednesday and Thursday crews will asphalt Sant Ferran's avinguda Joan Castelló i Guasch.

The Formentera Council's infrastructure office reports that asphalt will be laid on *avinguda* (avenue) Joan Castelló i Guasch in Sant Ferran in the morning and afternoon on Wednesday and Thursday, April 24-25.

Traffic will be regulated during construction. Even still, CiF infrastructure chief Rafael González asked motorists for patience for any slow-down that might occur during the work, which he called “crucial to wrapping up construction”.
